

Zylox-Tonbridge (2190.HK)
2024 Annual Results Presentation

March 2025

为生命恒创新 INNOVATION FOR QUALITY LIFE

Disclaimer

This presentation has been delivered to interested parties for information purposes only and upon the express understanding that such parties will use it only for the purposes set forth above, and it is not intended to form the basis of any investment decision or any decision to purchase securities of Zylox-Tonbridge Medical Technology Co., Ltd. (the "Company").

This presentation does not constitute or contain an offer or invitation to sell, or any solicitation of any offer to subscribe for or purchase any securities in any jurisdiction in which the making of such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of such jurisdiction or would not otherwise be in compliance with the laws and regulations of such jurisdiction, and neither this presentation nor anything contained herein shall form the basis of, or be relied upon in connection with, any contract or commitment whatsoever. Securities may not be offered or sold in the United States absent registration or an available exemption from registration under the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act"). All the information in this presentation has been provided by the Company and has not been independently verified by its advisers or any of their respective affiliates or associates (collectively, "advisers"). No representation, warranty or undertaking, express or implied, is or will be made in or in relation to, and no responsibility or liability is or will be accepted by the Company or any of its subsidiaries or by its advisers or representatives as to the fairness, accuracy, completeness or correctness of, this presentation or any other written or oral information made available to any interested party or its advisers and any liability therefore is hereby expressly disclaimed.

This presentation is not intended to provide the basis for evaluating, and should not be considered a recommendation with respect to, any transaction or other matter. Any analyses included herein are not and do not purport to be appraisals of the assets or business of the Company or any of its subsidiaries or affiliates. Nothing in this presentation should be construed as regulatory, valuation, legal, tax, accounting or investment advice. Before you enter into any transaction, you should ensure that you will be responsible for conducting your own due diligence investigation with respect to the Company and fully understand the potential risks and rewards of that transaction and you should consult with such advisers as you deem necessary to assist you in making these determinations, including, but not limited to, your accountants, investment advisors and legal and/or tax experts. Any decision to purchase securities of the Company in any public or private offering should be made solely on the basis of the prospectus and/or international offering circular to be prepared by the Company in relation to any such contemplated offering together with any supplementary pricing information. This presentation contains no information or material which may result in it being deemed (1) to be a prospectus within the meaning of section 2(1) Companies (Wrinding Up and Miscellaneous Provisions) Ordinance (Chapter 32 of the Laws of Hong Kong) (the "Companies Ordinance") or an advertisement in relation to a prospectus or extract from or abridged version of a prospectus within the meaning of section 38B of the Companies Ordinance or an advertisement, invitation or document containing an advertisement or invitation falling within the meaning of section 103 of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong) (the "Securities and Futures Ordinance") or (2) in Hong Kong to have effected an offer to the public without compliance with the laws of Hong Kong, and is subject to material change without notice.

The information communicated in this presentation contains certain statements that are or may be forward looking. These statements typically contain words such as "will", "expects", "believes" and "anticipates" and words of similar import. By their nature, forward looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. There may be additional material risks that are currently not considered to be material or of which the Company and its advisers or representatives are unaware. These forward looking statements are not a guarantee of future performance. Against the background of these uncertainties, no representation or warranty is given as to the achievement or reasonableness of, and no reliance should be placed on these forward-looking statements. The Company assumes no responsibility to update forward-looking statements or to adapt them to future events or developments.

This presentation is confidential and must not be copied, reproduced, distributed or passed (in whole or in part) to any other person at any time without the prior written consent of the Company or its advisers.

By accepting this presentation, the recipient has agreed, upon request, to return promptly all material received from the Company or its advisers (including this presentation) without retaining any copies. In furnishing this presentation, the Company and its advisers or representatives undertake no obligation to provide the recipient with access to any additional information or to update this presentation or to correct any inaccuracies therein which may become apparent.

By reading and attending this presentation, you agree to be bound by the foregoing restrictions, and you shall be deemed to have represented to us that you (and any customers you represent) are either (a) a qualified institutional buyer (as defined in Rule 144A under the U.S. Securities Act) or (b) outside the United States (within the meaning of Regulation S under the U.S. Securities Act). You also represent that you (and any customers you represent) are "professional investors" described in Part I of Schedule 1 to the Securities and Futures Ordinance and any subsidiary legislation thereunder (including but not limited to the Securities and Futures (Professional Investor) Rules (Chapter 571D of the Laws of Hong Kong)).

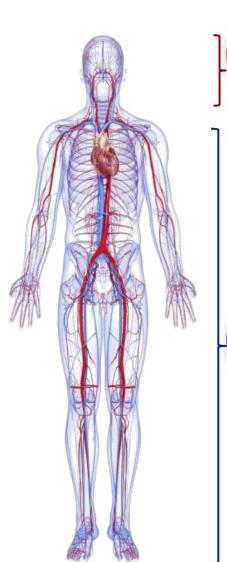

The distribution of this presentation in any jurisdiction may be restricted by law and persons in possession of this presentation should inform themselves about, and observe, any such restrictions. Any failure to comply with these restrictions may constitute a violation of the laws of any such jurisdiction.

Any prospective purchaser interested in buying securities of or evaluating the Company is recommended to seek its own independent legal, tax, financial and other professional advice.

VBPs Nears End Innovation Breakthrough

Business Highlights

恒创新 OUALITY LIFE

2024 Revenue Growth Continues First Full-Year Profit Over 100 million RMB

Seizing VBPs Opportunity for Rapid Hospital Access and Product Volume Expansion

- Covering Over 3,000 Hospitals with Over 80,000 Clinical Product Uses
- 10 VBPs in 2024 with Impressive Bidding Results,36 Products Win VBPs to Date

Accelerating Overseas Expansion

- 20 Products Commercialized in 24 Countries/Regions
- Overseas Revenue of 22.58million RMB with 4-Year CAGR of 86.8%

Efficiency Gains with Scale

- Sales Expense Ratio Down to 22%,
- Stable R&D and Admin Costs,
- Gross Margin at 71.6%

Efficient R&D Drives Product Portfolio Success

11 New Approvals in China Since 2024, Total Approvals Reach 47

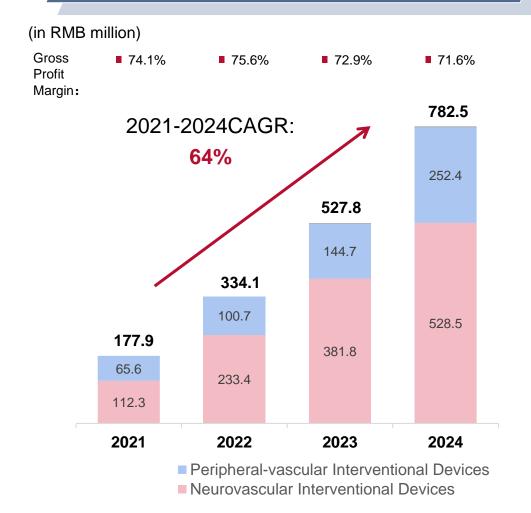

Product Portfolio and Commercialization Drive Rapid Growth and Profitability

Rapid Revenue Growth from 2021¹

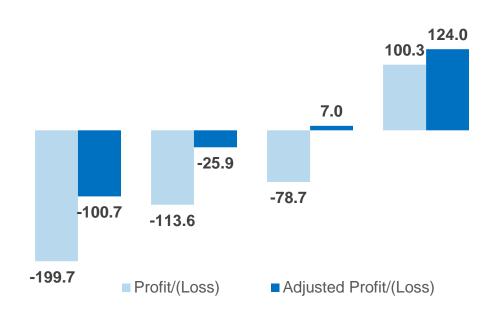

^{1.} Includes other sales revenue of RMB 15,000, mainly from material sales and technical service income.

^{2.} Adjustment item is equity-based compensation, totaling approximately RMB 23.737 million in 2024.

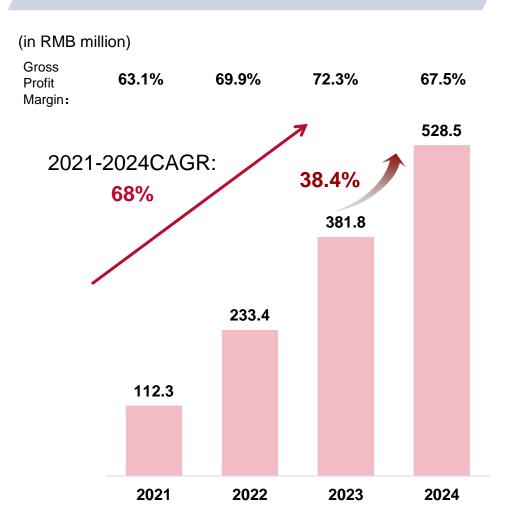

Neurovascular - Steady Revenue Growth

Revenue of Neurovascular Products

Main Source of Revenue

Thrombite Clot Retriever Device

SilverSnake Intracranial Support Catheter

Phoenix Detachable Coil System (I & II)

Baiju Intracranial Balloon Catheter

Other Launched Products

Kylin Flow Diverter

BeidouSS® Neurovascular Guidewire

Peripheral-vascular - Rapid Revenue Growth

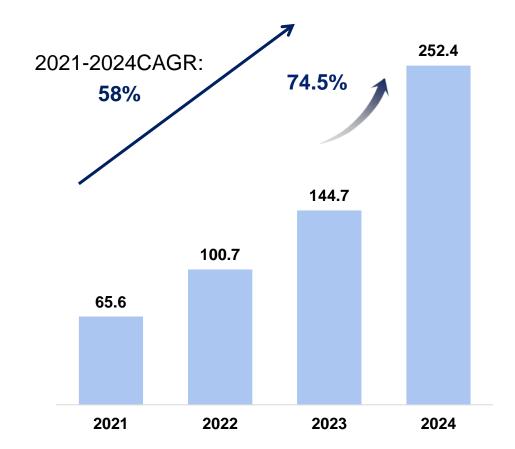

Revenue of Peripheral-vascular Products

(in RMB million)

% of Revenue: **36.9**% **30.1**% **27.4**% **32.3**%

Main Source of Revenue

Drug Coated PTA Balloon Catheter

PTA Balloon Catheter& High Pressure PTA Balloon Catheter

Retrievable Inferior Vena Cava Filter

Snare Retrieval Kit for IVC Filter

Endovenous Radiofrequency Ablation (RFA) Catheter

Other Launched Products

Notes:

- 1. Statistics based on the announced winning time of VBPs.
- 2. 47 products refer to those approved in China; 36 products participated in and won VBPs(including those with announced results but not yet implemented). * indicates a renewal bid.
- 3. Based on notices from Hebei Medical Insurance Bureau and industry information.

Full Product Lines for Neuro and Peripheral (Henan) *

2024 VBPs Results Stand Out, Boosting Growth

Observation of VBPs Rules

- Selection rules are more moderate, avoiding elimination; Price ranking drives volume allocation and hospital access.
- Procurement volume closely matches product demand vs. fixed market share
- Comprehensive capabilities (market share, demand, price, cost) are key to winning.
- Industry concentration increases, benefiting healthy development.

Apr

Hebei "3+N" Alliance VBP

- ➤ Intracranial Support Catheter: Won with Highest Rank in Group A¹
- ➤ Clot Retriever Device: 2 Products Won, Accounting for **33%** of Total

Dec

National VBP of Peripheral Vascular Stents

- Venous Stent Launched and Entered Group A in the Same Year
- ➤ Sole First-Round Winner for Iliac Vein Products
- > Access to All Hospitals

Jan

Hebei Alliance VBP of Vascular Intervention

- > Flow Diverter: Won in Group B, First Rule
- ➤ Intracranial PTA balloon catheter: Won in Group A, Second Rule
- Peripheral Balloon Catheter Won in A/B Groups under First/ Second Rule
- ➤ Only First/ Second Rule Winners Eligible for Secondary Volume Allocation

Committed to Leveraging Al Technology to Enhance Surgical Outcomes

Real-time Imaging of the Treatment Area + Targeted Rotational Cutting

- Visualized Targeted Rotational Cutting
- Precise and Efficient
- Reducing the Risk of Arterial Damage
- Achieving Longer-Lasting Vascular Patency Rate

Next-generation Upgrade

Al empowered

Real-time Imaging Analysis:

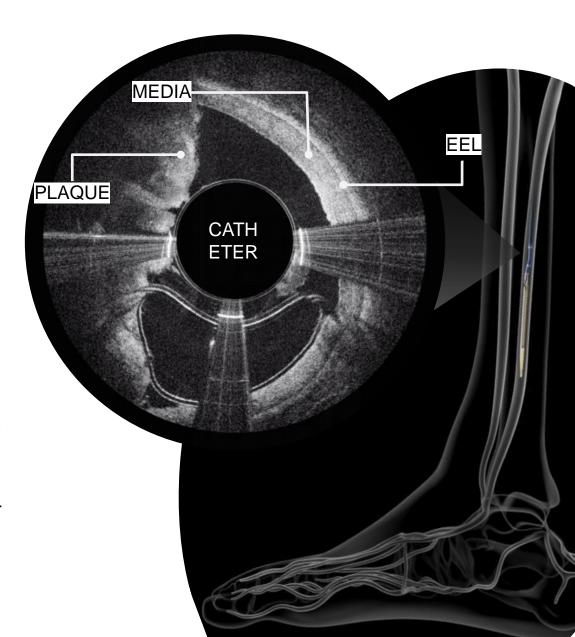

- Automatically recognize vascular structure and plaques, delineate the boundaries of lesions and quantify the degree of stenosis.

Improve Treatment Accuracy:

- Reduce the learning curve of OCT, enhance the precision and safety of treatment.

Personalized treatment plan:

• - For complex lesions, combine OCT imaging with patient history to tailor treatment plans.

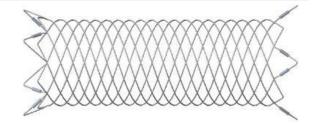

Neurovascular Interventional Portfolio Future Key Products

INNOVATION FOR OUALITY LIFE

Indications

Intracranial Hemorrhagic Stroke. It is often used in combination with a coil for the surgical treatment of complex intracranial aneurysms and wide-necked aneurysms.

Target Market

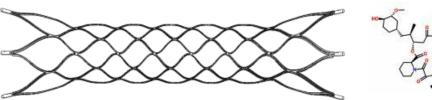

Stroke epidemiology shows, there are 4 million new cases of stroke each year, of which hemorrhagic stroke accounts for about 20%, and wide-necked aneurysms clinically account for about 40% of the proportion of aneurysms.

Product Characteristics

- Through-body visualization: Full-body radiopacity with nickel-titanium wrapped in platinum, making each filament visible under imaging. It has three radiopaque markers at both the proximal and distal ends, allowing surgeons to better assess the stent's deployment status.
- Stent's diverse filament count: Lightweight design, ease of opening and adherence ensure smooth deployment in various vessels. The super-elastic nickeltitanium material adapts well to tortuous vessels.
- Smooth push: The delivery system features release and retrieval radiopaque markers, ensuring the distal end of the microcatheter does not exceed the retrieval marker.
- Compatible with more indications: Its high metal coverage maintains collateral vessel circulation.

1. The literature "Preliminary Application of Neuroform Atlas Embolization Assist Stent for the Treatment wide-necked aneurysms," states that wide-necked aneurysms account for >40% of intracranial aneurysms.

Drug Coated Self-expandable Intracranial Stent

Self-expandable Intracranial Stent

Indications

Intracranial Stenosis

Target Market

According to the Frost & Sullivan Report, 30% to 50% of ischemic stroke cases are related to intracranial stenosis. The number of patients with intracranial stenosis in China amounted to 17.3 million in 2019, and is estimated to further increase to 27.9 million in 2030.

Product Characteristics

- **Drug performance**: Designed with appropriate drug loading capacity for thrombosis reduction, which can maintain the effective concentration of drug in the tissues appropriately, while reducing tissue cytotoxicity.
- Stent performance: Adopts a unique design of mesh and stent ribs, which ensures even stress and strain distribution, providing sufficient radial support for excellent wall apposition.
- **Delivery system performance:** Equipped with a multi-stage stiffness distribution, which is both supportive and flexible with a higher delivery ratio.

Lean operations, Driving Efficiency Through **Automation and Digitization**

Economies of Scale + Supply Chain Optimization

- Enhanced procurement bargaining power
- Increased domestic sourcing rate for core materials
- Optimized supplier structure to continuously improve quality
- Shortened delivery times and improved inventory turnover efficiency

Automation + Digitalization

- Al-empowered R&D enhances output and efficiency
- Production lines are over 25% more efficient.
- Yield and capacity are continuously improved.
- Production is rapidly adjusted to market dynamics.

Development Strategy:VBPs + International Expansion + Innovation

Leveraging a comprehensive product portfolio

Utilize VBPs to expand market share

Continuous Innovation

Embrace AI to accelerate intelligent solutions

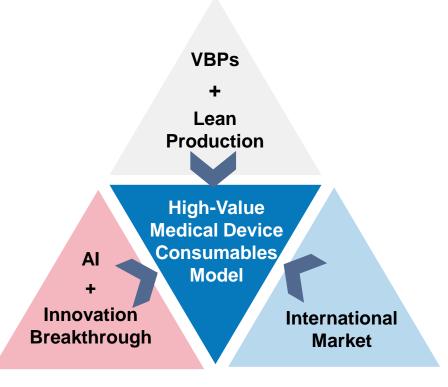

Lean Production

Enhance overall operational efficiency

Dual-Track Approach:

Drive international business growth through organic development and M&A
